## Notes to Users

This document is not audited and should be read in conjunction with the Q4/04 Report to Shareholders, Quarterly Results slides for Q4/04, the Consolidated financial statements for the year ended October 31, 2004 and the Explanation of Certain Terms on page 1 of this document. Certain comparative amounts have been reclassified to conform to the current period's presentations.

### Significant changes made to this document in Q4/04

#### **Certificates of Deposit**

In Q4/04, we reviewed the presentation of certain items on our consolidated balance sheet and reclassified \$6.8 billion (\$7.8 billion: July 31, 2004, \$5.8 billion: October 31, 2003) of certificates of deposits from Interest-bearing deposits with banks to Available for sale securities in order to more appropriately reflect the nature of these instruments. Amounts for the previous quarters have been similarly reclassified.

#### **Revenue reclassifications**

In Q4/04, we revisited and reclassified \$1.0 million (\$1.0 million in Q3/04 and \$15.0 million in Q4/03) of revenues from Trading revenues to Underwriting and other advisory fees. Amounts for the previous quarters have been similarly reclassified. These reclassifications did not impact total revenues.

#### **US\$ Term Deposits**

In Q4/04, we revisited our segment reporting and reclassified certain average balances to more appropriately reflect the pricing and funding of these instruments, as well as the way management reviews these results. US\$ term deposit balance were reclassified from RBC Capital Markets to RBC Banking and RBC Investments. We reclassified US\$ term deposit balances totalling C\$4.6 billion during Q4/04 (C\$4.5 billion during Q3/04 and C\$4.9 billion during Q4/03) from RBC Capital Markets to RBC Banking and RBC Investments. Amounts for the previous quarters have been similarly reclassified. These reclassifications did not impact our segment and total revenues and expenses.

#### **Capital Ratios**

Our capital ratios that are filed with the regulators are calculated in accordance with OSFI regulations based on Canadian GAAP. We manage capital to the OSFI-mandated ratios and our own targets.

#### **Items in Transit**

During Q4/04, we reviewed the presentation of certain items in transit accounts and reclassified, commencing November 1, 2003, balances owing to other banks that arise from the clearing settlement system. These amounts were previously recorded in Cash and due from banks and have been reclassified to Deposit interest-bearing, Other liabilities and Other assets in order to more appropriately reflect the nature of these balances. Balances due from other banks that arise from the clearing settlement system will continue to be classified in Cash and due from banks. At October 31, 2004, Cash and due from banks of \$180 million (July 31, 2004 - \$37 million), \$1.7 billion (July 31, 2004 - \$1.9 billion), and \$1.1 billion (July 31, 2004-nil) were reclassified to Deposit interest-bearing, Other liabilities and Other assets, respectively.

### Significant changes made to this document in Q3/04

#### **RBC Capital Markets reclassifications**

This quarter, we have corrected a misclassification of revenues in the second quarter of 2004 relating to our capital markets segment. This resulted in an increase of \$45 million in Trading revenues included in U.S. net interest income, increase in total net interest margin of 4 basis points and a \$45 million reduction in Trading revenues included in U.S. non-interest income. This reclassification did not impact total revenues and total trading revenues.

#### **EPS restatements**

Basic earnings per share for Q2/04, Q4/03, Q3/03 and Q3/02 and diluted earnings per share for Q1/04 have been restated downwards by one cent per share, in accordance with EITF 03-6 as discussed in Note 1 of Q3/04 financial statements in the Report to Shareholders. Diluted earnings per share for the nine months ended July 31, 2003 was restated to reflect a reduction of one cent per share.

#### **Revenue and expense reclassifications**

During the quarter, we revisited and reclassified certain revenue and expense amounts for previous periods. Revenues were reclassified between the categories of Underwriting and other advisory fees, Trading revenues (included in both net interest income and non-interest income) and Securities brokerage commissions and Other. Expenses were reclassified between Equipment, Communications, Professional fees and Other. These reclassifications did not impact total revenues and expenses.

#### **Loans information**

During the quarter, we corrected a misclassification, in prior periods, of our categorization of certain loan products. Accordingly, we reclassified Business and government loans to Personal loans. The reclassification had no effect on total loans or net interest income in any period.

### Non-GAAP financial measures

#### **General Caution**

We believe the use of non-GAAP financial measures, such as core earnings, cash earnings, economic profit, and average balances, can provide useful information to investors regarding the company's financial condition and results of operations. Readers are cautioned that non-GAAP financial measures do not have any standardized meaning prescribed by GAAP and therefore are unlikely to be comparable to similar measures presented by other companies. Further explanations of non-GAAP financial measures are provided in the **Explanation of Certain Terms on page 1**.

#### **Special Items/Core Earnings**

Our management evaluates our performance primarily on the basis of our results as reported in our consolidated financial statements prepared in accordance with United States generally accepted accounting principles (GAAP) as well as on a "core" basis (i.e., excluding "special items", which are transactions or events that affect our reported results but that, in our view, are not part of our normal day-to-day business operations). We believe that the impact of special items may obscure or distort trends in the results of our ongoing operations and that investors evaluating our results may find core earnings information, which excludes such impact, to be a useful supplement to GAAP information. However, it should be noted that determining whether an item is a "special item" involves judgment by management. The impact of special items could be material to our operating results computed in accordance with GAAP in a period.

#### **Cash Basis Measures**

Cash basis measures, such as cash earnings, and cash ROE, are computed by adding back to net income the after-tax amount of amortization of goodwill and other intangibles (and other non-cash charges such as depreciation). We believe that some investors can find it useful to review cash basis measures because non-cash charges such as the amortization of goodwill and other intangibles are accounting concepts that do not deplete an issuer's cash reserves. We believe these measures provide additional information on our ability to meet our fixed charges and present them solely as supplemental measures.

#### **Common Equity**

GAAP does not prescribe a method for allocating equity to business segments. For management and reporting purposes, we attribute common equity to our business segments (including the Other segment) based on methodologies designed to measure the equity capital necessary to underpin the risks of the businesses in each segment, as discussed on page 54 of our 2003 Annual Report. The methodology used to allocate capital involves judgment by management, is revised from time to time, and significantly impacts other measures such as business segment ROE and Economic Profit.

#### **Economic Profit**

Economic Profit is calculated using cash operating earnings (i.e., net income available to common shareholders excluding the after-tax impact of special items and amortization of goodwill and other intangibles), less a charge for the cost of common equity. We disclose Economic Profit as it is used by our management to evaluate the performance of our business segments and because some investors may also find it useful in evaluating our financial performance and analyzing trends in our businesses. It should be recognized that this measure reflects numerous judgments by management, including those related to the cost of capital and the allocation of common equity among business segments.

## Explanation of Certain Terms

### Average assets

Calculated using methods intended to approximate the average of the daily balances for the period.

### Average deposits

Calculated using methods intended to approximate the average of the daily balances for the period.

### Average allocated common equity

For RBC, calculated as the average of the month-end common equity balances for the period. For the segments, calculated using methods intended to approximate the average of the daily common equity balances for the period. Attributed to the segments as discussed under "Common Equity" in Notes to Users.

### Average earning assets

Calculated using methods intended to approximate the average of the daily earning asset balances for the period. Earning assets include deposits with other banks, securities, assets purchased under reverse repurchase agreements and loans.

### Average loans and acceptances

Calculated using methods intended to approximate the average of the daily loans and acceptances for the period.

### Cash basis measures

Computed by adding back to net income the after-tax amount of amortization of goodwill and intangibles.

### Economic capital

An estimate of the amount of equity required to underpin risks consistent with the bank's desired solvency standard and debt rating. Specifically, Economic Capital is determined based on an assessment of credit, insurance, goodwill and intangible, trading market, operational, business, fixed asset and non-trading market risks taken to generate profits in a particular business segment.

### Economic profit

Net income available to common shareholders excluding the after-tax impact of special items and amortization of goodwill and other intangibles, less a charge for the cost of common equity. See "Economic Profit" in "Notes to Users".

### Efficiency ratio

Non-interest expenses as a percentage of total revenues.

### Market capitalization

End of period shares outstanding multiplied by the closing share price.

### Net interest margin

Net interest income divided by average assets, or by average earning assets.

### Regulation G

A regulation under the United States Securities Exchange Act of 1934, which requires certain disclosure when a company provides financial information that is calculated and presented on the basis of methodologies other than in accordance with GAAP.

### Reported basis

Based on information found in the financial statements prepared in accordance with United States generally accepted accounting principles (GAAP).

### Return on assets

Net income divided by average assets.

### Return on equity (ROE)

Net income available to common shareholders divided by average common equity for the period.

### Special items

Certain transactions or events that affect our reported results that in management's view are not part of our normal day-to-day business operations.

<sup>1</sup>Economic profit is defined on page 1.

<sup>2</sup>Special items in 2001 are detailed on page 26.

<sup>3</sup>The capital charge is derived by multiplying the cost of equity by the amount of average allocated common equity. Average allocated common equity is attributed to the business segments based on methodologies designed to measure the capital necessary to underpin the risks of the businesses in each segment. The cost of equity is a proxy for the after-tax return required by shareholders for the use of their capital.

<sup>1</sup>Includes commodity and precious metals.

<sup>2</sup>Incorporates management assumptions based on empirical research on consumer behaviour relating to the exercise of embedded options and on the rate paid on liabilities not linked to market rates. All interest rate measures are based upon our current exposures at a specific time. The exposures change continually as a result of day-to-day business activities and our risk management initiatives.
